PROFILE

I am a **Junior UX Designer** who focuses on accessibility, usability, and making things clear and usable without overcomplicating them. Most of my experience comes from working through internship and academic projects, revisiting decisions, and improving them through feedback and testing. I'm especially interested in designing for people who are often overlooked in typical user flows.

UX WORK

UX / Interaction Design Intern → Volunteer
CMPA & Renew App (UK)
May 2025 - Present

- Ran a WCAG 2.1 and heuristic audit of the CMPA platform and documented issues with annotated visuals
- Contributed to early UX work for Renew (user flows, wireframes, accessibility fixes)
- Suggested a verification approach that balanced usability with security needs
- Improved browse/search structure to make navigation more straightforward
- Logged and refined 90+ tickets so issues were clearer and easier for developers to act on

ACADEMIC UX WORK

OpenVoice → AAC Communication App
Project
September 2025 - April 2026

- Designed an accessible communication app for adults using AAC, focusing on clarity and speed of interaction
- Developed user flows, wireframes, and prototypes in Figma
- Prioritized accessibility in navigation, layout, and emergency access features
- Iterated on structure to reduce cognitive load and make interactions more predictable

Design

- Figma
- Adobe Creative Suite
- wireframing
- prototyping
- usability testing

Accessibility

- WCAG 2.1, heuristic evaluation

Development

- HTML
- CSS
- React (basic)

General

- collaboration
- problem-solving,
- attention to detail
- time management

Social

- estherram.github.io
- Portfolio linkedin.com/in/estram

Junior UX/UI Designer

ACADEMIC UX WORK

Cycling Community Platform + Product Concept

Project

September 2025

- Worked on a hybrid physical–digital concept combining a product (bike-chain keychain) with a community platform
- Designed the community feed UI, navigation, and overall structure
- Contributed to branding (bike-chain logo) and early product concept sketches
- Iterated based on feedback to improve flow, usability, and engagement

Leg Day Journey → Experience Visualization

Project

January 2023

- Translated a real routine into a structured visual timeline of events, thoughts, and emotions
- Focused on hierarchy, readability, and connecting internal states to actions
- Iterated on layout and structure to improve clarity and flow
