PROFILE

UX/UI Designer with experience in accessibility, usability, and interaction design through both professional and academic projects. I enjoy figuring out why users struggle, simplifying complex workflows, and working with developers to turn research into practical solutions. My goal is to create products that are clear, intuitive, and accessible without adding unnecessary complexity.

SKILLS

UX & Interaction Design

User Research • User Flows • Information Architecture • Wireframing • Interactive Prototyping • Usability Testing • Interaction Design • Design Documentation

Accessibility

WCAG 2.1 • Nielsen's 10 Usability Heuristics • Inclusive Design • Accessibility Auditing

Tools

Figma • Adobe Creative Suite • HTML • CSS • GitHub • AI

Professional

Developer Collaboration • Problem Solving • Communication • Organization • Attention to Detail • Time Management

WORK EXPERIENCE

UX / Interaction Design Intern → Volunteer → Contractor

CMPA & Renew App (UK) | May 2025 - Present

- Conducted WCAG 2.1 accessibility and heuristic evaluations to identify usability issues across the CMPA platform, documenting findings with annotated visuals that helped prioritize future improvements.
- Assisted in developing user flows, wireframes, interface concepts, and supporting documentation to explore solutions for an in-development multimedia app, to introduce new features and improve existing experiences.
- Researched and proposed a user verification process that balanced security requirements with a more intuitive onboarding experience.
- Redesigned the browse and search experience to improve content discovery, simplify navigation, and reduce unnecessary user decisions.
- Reviewed, created, organized, and refined more than 90 GitHub tickets, clarifying requirements and translating UX findings into actionable documentation for developers.
- Collected user feedback (Google Docs, Discord feedback channel, and App Store Connect) and created service tickets that reflected the improvements required to improve the user experience and overall accessibility.
- Worked closely with developers and project stakeholders to discuss design decisions, evaluate feedback, and refine solutions throughout the development process.

DESIGN EXPERIENCE

OpenVoice → AAC Communication App

Project | September 2025 - April 2026

- Designed an AAC communication application focused on reducing cognitive load, increasing user autonomy, and supporting faster communication for adults with varying and complex communication needs.
- Conducted user interviews/testing (Dyslexic users, caregivers, and Speech Language Pathologist), competitive analysis, and usability research to better understand communication barriers and accessibility needs.
- Created user flows, wireframes, interactive prototypes, and design documentation in Figma.
- Designed emergency communication features that prioritized accessibility, clarity, and ease of use during high-stress situations.
- Refined the design through iterative testing, research synthesis, and instructor and industry member feedback to improve usability and overall user experience.

Cycling Community Platform + Product Concept

Project | September 2025

- Designed the navigation structure and community feedback interface for a platform that encouraged cyclists to connect through shared content and events.
- Developed information architecture, interface layouts, and user flows to create a clear and intuitive social experience.
- Collaborated on branding and concept development for a companion physical product (digital keychain), ensuring a consistent experience across digital and physical touch-points.
- Improved layouts and navigation through iterative feedback and design refinement.

EDUCATION

Honours BA of Interaction Design

Sheridan College, Oakville | 06/2026

Advanced Visual and Creative Arts

Sheridan College, Oakville | 2021

Art Fundamentals

Sheridan College, Oakville | 2019
